Are YOU Missing Something that Millions Enjoy?

Why do you suppose the majority of men on this continent who can afford the money for shaving satisfaction, are using the Gillette Safety Razor?

Why is the Gillette a treasured item of equipment in the kit of practically every officer and of tens of thousands of men in the Canadian Overseas Forces?

Only one reason could possibly hold good with so many level-headed men. It's this—the Gillette gives a shave, day in and day out, that no other rezor in the world has ever equalled—and does it handly in five minutes or less. That is why over a million more men everywhere are adopting the Gillette every year.

YOU would appreciate this as much as any other man! The saving of time—the independence of barber shops—the resulting economy—and above all the matchless comfort of the clean, quick Gillette shave -these are real, personal advantages which you must not longer miss.

The Gillette Safety Razor is a leading specialty with Hardware, Drug and Jewelry Dealers everywhere. "Bulldogs", "Aristocrats" and Standard Sets cost \$5.00 -Pocket Editions \$5 to \$6.-Combination Sets \$6.50 up.

TARON ALLIANCE

ision Your Sons, Mothers of Canada!

Vision them at early morning when through rising mists, there bursts a hurricane of fire-See your valiant boys --- calm, grim, but cheerful --- "stand-to-arms" until the Hun's

morning hate" dies away. Picture them at breakfast, the meal that must bring them the bodily sustenance to carry them through the strain of another day.

Then think of what might happen if, one morning, there was no breakfast—no food to be had, and the word went down the lines that Canada had failed them.

Vision all these things, and then As Women of Canada Mothers of Men Answer this Call to Service.

Canada must send to Her Own, and to the Allies Fighting Forces, more wheat, more beef, more bacon, and more of such other foods as are non-perishable and easily exported.

Canada can do this, without depriving herown population of a fair share of any of these foods if You Women will but help.

All we ask of you is, that instead of buying so much white flour (if you do your own baking) you vary your baking by using onethird oatmeal, corn, barley or rye flour. Or, if you buy your bread, that you order a certain proportion of brown bread each day.

Second, instead of using as much beef and bacon as formerly, you vary your family's diet, by substituting for beef and bacon such equally nutritious foods as fish, peas, lentils, potatoes, nuts, bananas, etc.

Third, and this is most important -positively prevent the waste of a single ounce of food in your house-

Must Be Fed

Statistics show that, everyday, in Canada. sufficient food is thrown into garbage cans, to feed the entire Canadian Overseas Army.

Travellers have often remarked that many a European family would live well upon the quantity and quality of food wasted in some Canadian homes

Such waste is shameful at any time; but in these times it is criminal.

Our only hope is that with these truths before you, and in view of the vital issues at stake, we may count upon your earnest co operation in stopping this appalling waste; and in substituting other foods for the wheat, beef and bacon that must be sent overseas.

Next week a Food Service Pledge and Window Card will be delivered to you. The Pledge is your Dedication to War Service. The Window Card your Emblem of Honour.

It would be a defeat for the Liberal party and a disgrace to Canada. The burden of decision has been placed upon a disgrace to Canada. The burden of decision has been placed upon all life-long Liberats the Mayor Kerr, of Chakhan, and it is no light thing for them to break away from cherubed 'associations and renounce a leader of whom they have been proud. The Immortal Cry of Canada at the Second Battle of Ypres.

The defence of Ypres following the first ghastly gas at-tack April 22, 1915, exalts all history. By it our men were transfigured and the undying, imperishable Soul of Canada revealed.

In the name of these Heroes of Ypres, Festubert, Givenchy, Vimy Ridge, Lens, The Somme, Verdun—aye and the Deathless "Old Contemptibles"—we beseech you, Women of Canada, to Dedicate Yourselves and Your Families to War Service by signing the Food Service Pledge.

The sacrifice is not great. We merely want you to substitute other foods for part of the white bread, beef and bacon your family now eat.

Mine, because it fills a very real place in my daily life.

Through it, the whole world's events are described, pictured, and commented upon in such a manner, that by reading it every day I keep well informed upon every topic that a good citizen and man of the world should know about.

My experience has proven its news service quick and reliable, its special articles the work of the leaders of thought upon each subject; its features, whether of sports, home matters, or humorous cartoons, clean and up to date.

 My children may read it with under-standing and profit, and with the comfortable knowledge on my part that nothing offensive to morals and good taste will ever meet their eyes.

Hence I am glad to count myself among the tens of thousands of people who regard The Toronto Daily Star in all sincerity and earnestness as "MY PAPER!"

Once More Canada Must Stand in the Gap. Once More Must Hold the Lines of Communication

As, when at Ypres, Canada's Gallant Sons stood in the Gap and held back the Hunnish Hordes---and shed Immortal Glory on Canada's fair name---

So, in their homes, Canada's Noble Women are now called upon to Stand in the Gap and hold back the spectre of hunger from our

troops. The men "out there" must have sufficient food. Only certain kinds of food are suitable for export.

And so we ask you to Pledge yourself and your family to eat less of these foods, so that there may be sufficient of them for export.

For example—if you do your own baking use one-third oatmeal, corn, barley or rye flour with your white flour. If you buy from a baker, order some brown

bread each day. Substitute for beef and bacon such equally nutritious foods as fish, peas, lentils, potatoes,

nuts, bananas, etc. And---this is most important---positively prevent the waste of a single ounce of food

in your household. Next week a Food Service Pledge and Window Card will be delivered to you. The Pledge is your Dedication to War Service---The Window Card is your Emblem of Honour.

Generally speaking, flat has about the same digestibility as meat, the non-oily kinds being more easily digested than the oily ones.

The caloric rating of different foods is not an absolute measure of their value. A better test is the proportion absorbed by the 'uman body as

On the western prairie are set thements where foreigners of alte enemy origin have settled and bee "colonised" by politicians for vot "colonized" by politicians for vos-ing garposen, The English speak-ing electors in these districts have been offminishered and distriminat-ed sgaingt because the machine politician could swing a solid for-eign vote. The war came, and to sons of the English speaking peo-ple shouldered their rifles and went of the finite because the ple shouldered their rifles and wen off to fight the relatives of his for eign neighbors. The latter did no send any sons to the war to fight for Great Britain, although cases were known of reservists slipping out of the country quietly and somehow reaching Germany. The absence of fariners' sons made labor scarge, and here is where the foreigner saw his opportunity.
Wages were boosted skyward, the
English speaking farmer whose son
was fighting the battles of freedom, was held up by the relatives of th

men, that son was fighting.

Don't make any mistake, despite what the Olivers, Neelys, and all other machine politicians say about the franchise act, there is joy in Manitoba, Alberta and Saskatche-wan among the people who know that the Act is fair and just to Canmat the Act is fair and just to Can-adianis and care not how the for-signer regards it of how foud the wolf cries of the machine politicians arise deceases a solid vote has been taken-from him.

When You Eat Dinner To-day

Give thanks, please, to those valiant men who, on the fields of France and Flanders, hold back the Hordes of Destruction, and make possible the peaceful enjoyment of your meal.

Some of those men have not had a sight of a home meal for three years. Home to them is a vision—a hope—a prayer. Will you let them suffer still further for want of food?

You cannot will not must not. Resolve then, to sign and live up to the letter of the Food Service Pledge.

Eat less Beef, Bacon and White Bread so

that we may have sufficient of these foods

Instead of buying so much white flour (if you do your own baking), use one-third oatmeal, corn, barley or rye flour. If you get bread from a baker, order some brown

bread each day. Second, substitute for beef and bacon such equally nutritious foods as fish, peas, lentils,

potatoes, nuts, bananas, etc.
Third, prevent the waste of a single ounce
of food in your household.
For the honour of Canadian womanhood,

Sign and Live up to the Food Service Pledge.

HOW REST TO USE CEREALS

Cereals rank first smong vegetable foods. They contain in varying proportions all the elements necessary to support life. They contain a great deal of starch, which is needed to keep the body warm and to make it do its work. A bowl of catment, extens for breaktant, will furnish the average medical contained to the contained of the conta

Cereals are improved by long cooking. There-fore, oatment, hominy and other cereals which are left over can be added next day to the fresh-cooked

cereals.

All cereals should be cooked at first for ten minutes directly over the fire, and then put into a double boiler. If you haven't a double boiler, place the saucepan containing the cereal in a larger sauce-

pan that contains bot water. By using a fireless cooker you can prepare your cerval at night, cook friends cooker you can always and the property of the morning you will find it all cooked and ready to be state. In this way you naw both time and fuel.

The New Pathe

Period Designs The Crowning Glory of a Superb Achievement. Wonderful Music housed in Beautiful Furniture.

THE new Pathe Cabinets are art-objects of beauty,—worthy temples of the music that pours from them. The very, loveliness of their artistic appearance is a delight to one's aesthetic sense and enhances the pleasure of their possession.

In the development of sound-producing instruments, nothing has been more "out-of-tune"— more discordant—more jarring than the plain—often ugly—boxes in which many makers housed their instruments.

It is therefore fitting that the Pathephone, which has attained such signal superiority in musical and mechanical directions, should also lead the way in the beauty of its appearance.

Their creation is the result of that same thoroughness which, during twenty-five years of restless striving after improvement upon improvement, has characterized Patho methods.

Men who have made the art of decoration a life-long study were commissioned to design a series of Pathephone Cabinets that would be worthy of the great name of Pathe.

Exquisite examples of furniture periods most famous in history were selected as the models for the Pathe Period Cabinets. The result is a collection of instruments unique and beautiful.

For All We Have and Are

To-night—under the wide canopy of Heaven, trenched in a line from the North Sea to Switzerland, pacing decks of ships, peering into darkness, that holds perils such as God's omnipotence never formed, millions of men are braving death for us.

Not one among whom but holds some woman dear (even though she be only the Dream Woman of his finer moments).

And with thoughts of "her" comes that other thought of the German Michael loosed upon the earth.

Do you wonder why our men fight hard?

Think, then, of what a privilege it is for us women to help send sufficient of the right kinds of food for the bodies of such great souls.

Think of this and then ask yourself whether you will forbear to substitute other foods for the white bread, beef and bacon you and your family now consume; and, in addition, prevent the waste of a single ounce of food in your home.

Your service of sacrifice is so small. The result will be so great—you surely cannot

"Will they let Famine Fight Against Us?"

To us who stay at home, good meals, eaten in comfort, are a commonplace.

But to our Sons, Husbands and Fathers "out there" food is the only thing that matters.
The possible lack of food forever haunts them.
For without food, how can they "carry on."

From whence shall come their bodily strength?

Realizing these things---how dare we fail to send them the foods they so sorely need?

How can we refuse to eat a little less white

bread, beef and bacon so that there will be enough of these non-perishable foods for them?

Shall we let famine, also, fight against them? Or with these facts before them will the great Legion of Canadian Women live up to their Food Service Pledges?

The answer lies with each one of you.

The Judgment of Mankind will write an outcast verdict upon those who do not sign and live up to the Food Service Pledge.

Made and Worn by Two Generations

Over a quarter of a century ago the late C. E. Stanfield, Pioneer underwear manufacture of Truro, NS, discovered a way to prevent woollen underwear from abrinking—by the radical but sensible plan of taking the strink out of the wool before it went to the knitting machines.

His secret process at once overcame the one fault of woollen underwear, and started a keen and steadily growing demand for the Stanfield's product. On it, by steady development, his two sons, at the head of Stanfield's Limited, have built a thriving business, providing underwear for hundreds of thousands of Canadians.

From the very first, the sterling quality of Stanfield's Underwear, as proved by wear and washing, has been its most prominent feature. It actually DOES NOT SHRINK, "full up" nor mat—and on the basis of length of service it is the best value offered in underwear.

Not content with superior quality, Stanfeld's give wearers all the little niceties that make undergaments luxurious. Among the newer improvements are the wonderfully handy Adjustable Combinations and on the way of the proving children. Simply moving the buttons on the wait allowed growing children. Over Two Million

ORE than two million Ford cars have been made and sold, and more than 140,000 of this vast number have been "Made in Canada".

The Ford enjoys the largest sale of any motor car, because it represents the greatest motor car value. Its name has always stood for low cost, and the car has everywhere given satisfactory service.

Ford Endurance, Ford Dependability, and Ford Universal Dealer Service have made the Ford car universally popular.

Every third car in Canada today is a Ford. The judgment and decision of these 2,000,000 satisfied Ford owners should convince you that the Ford is a superior car, and equal to your needs.

Who Answers Your Telephone?

ime importance to your business that the person

swering your telephone be pleasant-voiced, polite, intelligent.

It is important, too, that your telephone be answered by an

employee who is thoroughly posted on the details of your

business. It is annoying to call and be answered by someone who will let you tell him everything you have to say and then inform you that you will have to tell the whole story to someone else.

We suggest that you give this matter of incoming telephone

calls your careful attention. Many merchants insist on their most experienced employees answering the telephone.

-a certain poor widow casting in thither two mites.

For all that there were but two mites, the sacrifice counted high with the Recording Angel

For all that we ask of you is but little, the Multiplication of That Little will count high in the record of Canada's War Service.

And because of the Spirit and Sacrifice of those valiant men who are defending us, we feel that a great and noble Legion of Canadian Women will respond to this appeal.

Food is scarce—not because we have not had good crops, but because of the Lack of Production in Europe. Canada must make up for this, else hunger defeat her own and the Allies' Armies.

Enough food is wasted in Canada every day, to feed the entire Canadian Overseas Army for that day.

We do not ask you to deny your family food. Merely substitute certain other foods in place of a proportion of the white bread, beef and

bacon they now eat.
For example: When baking use one-third corn, oatmeal, barley or rye flour with your white flour. Or tell your baker to bring you some brown bread each day.

Substitute for beef and bacon such foods as fish, peas, lentils, potatoes, nuts, bananas.

And --- this is most important --- Prevent waste of food in your home.

We ask it in the name of those who are fighting for us.

The Food Service Pledge is your Dedication to War Service. The Window Card your Emblem of Honour.

Get Behind the Wheel of a Ford and Drive

RY it just once! Ask your friend to let you "pilot" his car on an open stretch. You'll like it, and will be surprised how easily the Ford is handled and driven.

If you have never felt the thrill of driving your own car, there is something good in store for you. It is vastly different from just riding—being a passenger. And especially so if you drive a Ford.

Young boys, girls, women and even grandfathers—thousands of them—are driving Ford cars and enjoying it. A Ford stops and starts in traffic with exceptional cases and stockness, while on country roads and hills its strength and power abow to advantage.

Who Answers Your Telephone?

It is of prime importance to your business that the person answering your telephone be pleasant-voiced, polite, intelligent. A curt, snappy answer results in loss of trade.

It is important, too, that your telephone be answered by an employee who is thoroughly posted on the details of your business. It is annoying to call and be answered by someone who will let you tell him everything you have to say and then inform you that you will have to tell the whole story to someone else.

We suggest that you give this matter of incoming telephone calls your careful attention. Many merchants insist on their most experienced employees answering the telephone.
